4. On 10 January 1979, Frank called to find out if we had any comments on the report. He also asked if we had made any decisions vis-a-vis the distribution of the three [REDACTED] reports which have been delivered to us over the past five months:

STAT

CIA Scientific & Technical Intelligence (11 August 1978)

Intelligence Community Support to Developers of Tactics and Doctrine (16 November 1978)

Systematic Evaluation of Intelligence for Product Improvement and Program Justification (3 January 1979)

5. I also spoke to [REDACTED] on 10 January 1979 who reiterated his view that he would like to get the three reports released so that he can distribute them within the Army. STAT

6. We need to decide what we want to do with the three reports:

- file them;
- release them but make no formal distribution;
- distribute them over the DCI's signature;
- distribute them over the D/DCI/RM's signature;
- distribute them over your signature.
